

**Section: Style and Computer
Program**

Date/Time	Talk	
Friday, June 24, 2005		
11:30-12:15	Alexander Mehler	Introduction: On the Formation of Styles in the Area of Computer-based Modeling
12:15-13:00	Joseph Goguen	Style as a Choice of Blending Principles
13:00-13:30 (short paper)	Matthias Dehmer	Graph-Based Patterns in Web-Based Systems
16:30-17:15	Peter P. Anderson	Styles of Computing
17:15-18:00	Antônio Gomes, Ricardo Gudwin & João Queiroz	Some Considerations on Artificial Semiosis
18:00-18:45	Edwina Taborsky	The Generation of Information
Saturday, June 25, 2005		
10:15-11:00	Wolfgang Wildgen	Geometrische und dynamische Aspekte in der semiotischen Bildanalyse
11:30-12:15	Gerd Döben-Henisch	Simulated Knowledge – The Challenge of Semantics
12:15-13:00	Rodney J. Clarke	Systems in Context: A Systemic Semiotic Approach to Information Systems in Organisations
14:30-15:15	Louwrence Erasmus	The Computer as Post-Modernistic Generator Tool of New Styles
15:15-16:00	Wolfgang Hebold	Stil und Programm
16:00-16:45	Marc Küster	Web Services, Registries und Arbeitsstil am Beispiel administrativer Nomenklatur
Sunday, June 26, 2005		
canceled	Rüdiger Gleim	Computer Games in Flux - A Survey of Stylistic Development
